OPERATING EXPENSE NARRATIVE  
TABLE VIII (a)

The Office of the A.I.D. Representative for Afghanistan Affairs was activated in Islamabad, Pakistan, in September 1985. The Office began with a \$15 million dollar program and a five person direct hire staff augmented by two personal service contractors. We were able to start with this core group only because USAID/Pakistan provides administrative, financial, legal and contracting assistance, permitting the AID/REP staff to focus on designing and implementing the program.

The cross border humanitarian assistance program expanded rapidly, adding the management of a highly labor intensive, DOD-financed, Afghan Humanitarian Relief (AHR) program for the transportation to Pakistan of large amounts of surplus humanitarian commodities, and for transportation to the U.S. and Europe of war-wounded Afghan patients for treatment. A PL 480 Title II food program was also added. The FY 1987 program should consist of \$30 million in A.I.D. funds, up to \$17 million in DOD AHR funds, and an estimated \$6 million of PL 480 funds.

The original staff was soon found to be insufficient. Recognizing this, AID/Washington quickly approved a resident-hire secretary and a Deputy Program Officer who focus on the AHR program. Both arrived in early 1987. Another secretary and a Deputy A.I.D. Representative were then approved and are expected to arrive this summer. Two part-time PSC secretaries are used to fill gaps. (The Office was forced to rely on expensive TDY secretarial services during much of the first year. Permanent staffing will help us to cut costs for this necessary support in the future.) Because the office is located in a secure portion of the Embassy, it has not been possible to hire either clerical or professional FSN staff.

We hope that the above staffing will be sufficient for a program which now manages four major contract groups and provides funds for a fluctuating number of grantees, 19 at this time. However, it is possible that two positions contemplated in the original staffing plans may have to be activated. We now have a PSC liaison officer in Peshawar who has been the focal point there during the early stages of the program. Programs operating from Quetta, Baluchistan, are now building, and a liaison officer in that city may become necessary in the future. A third special projects officer may also be needed if the workload continues to build.

We recognize that our increasing program is adding a significant workload for our USAID/Pakistan colleagues upon whom we rely heavily for support services. However, this is a much more efficient way of implementing the program than trying to develop duplicate support functions in the AID/REP office. USAID/Pakistan takes our requirements into account in its staffing plans.

The increasing AID/REP staff has required adjustments in space which the American Embassy in Islamabad has provided. (The quantity of classified materials with which the Office must work would make it difficult, if not impossible, to share an already crowded A.I.D. building.) With minor changes now under way, the Office will soon have an efficient workspace in the Embassy suitable for our tasks, including for the first time space to permit hiring an FSN program assistant.

Information Systems. The AID/REP Office is rapidly automating its program information requirements; we rely on USAID/Pakistan's information systems for our administrative and financial management requirements. We have two terminals on the Embassy's classified word processing system, and several Wang stand alone personal computers for unclassified word processing and spreadsheet needs. We plan over the next few months to convert several systems from data processing programs to data management systems, particularly for our complicated Afghan patient records.

Accountability. The AID/REP office has moved aggressively this year to assure that our control and accountability systems are in place and adequate. Five comprehensive Monitoring and Evaluation plans were prepared for each major project. Grantee plans were prepared for key PVOs. Our four major contractors are each establishing specific surveillance and monitoring staffs to maintain oversight of this unique and complex program. We engaged a non-federal auditor who is reviewing the financial and physical accountability systems for all our contractors and grantees, as well as the grantees funded by AID/Washington prior to the establishment of this office. We also commissioned a special survey of the particularly complex cash-for-food program which is administered by three European voluntary organizations. We plan to have continuing external accountability reviews once the current assessments are complete. The contractors also have been instructed to report on their monitoring and accountability system progress in every quarterly report. We have been able in contact with RIG/Singapore in order to establish an audit approach and schedule with them.

Budget. The FY 1988 budget was scrutinized by each function code in an effort to reduce operating expense costs. This submission actually shows a \$36,000 decrease for FY 1988 from FY 1987. A slight increase from FY 1988 to FY 1989 is expected, but it will be less than five percent.

Justification for funding changes

a. The increase in FY 1988 over FY 1987 under summary function code 100 is primarily due to the increased number of post assignments (3 positions) and anticipated increases in transfer allowances.

b. The increase in FY 1989 over FY 1988 under summary function code 400 is due to the anticipated increase in residential rents and procurement of replacement furniture and equipment. Also function code U407, Security Guard Services, is added.

c. The increase in FY 1989 over FY 1988 under function code 500 is due to the anticipated increase in the level as well as the cost of travel, and increased cost of supplies, and office furniture and equipment. The increase in travel is primarily due to increases in in-country travel related to a higher level of project monitoring activities.

Trust Funds. There is no possibility of a trust fund agreement with the Government of Afghanistan. The DRA is not a participant in the program. The USAID/Pakistan trust fund agreement specifically precludes budgetary assistance to any organization other than those directly involved with the implementation of the Pakistan aid program. However, the trust fund agreement will be renegotiated at the end of FY 1987. We have asked USAID/Pakistan to try to include this office in the scope of the new agreement.
